

Toronto Ombudsman Office of last resort

2011 Operating Budget 2011–2020 Capital Budget

January 13, 2010 Presentation to Budget Committee

DA TORONTO

Highlights: 2010 Results

First full fiscal year of operation completed

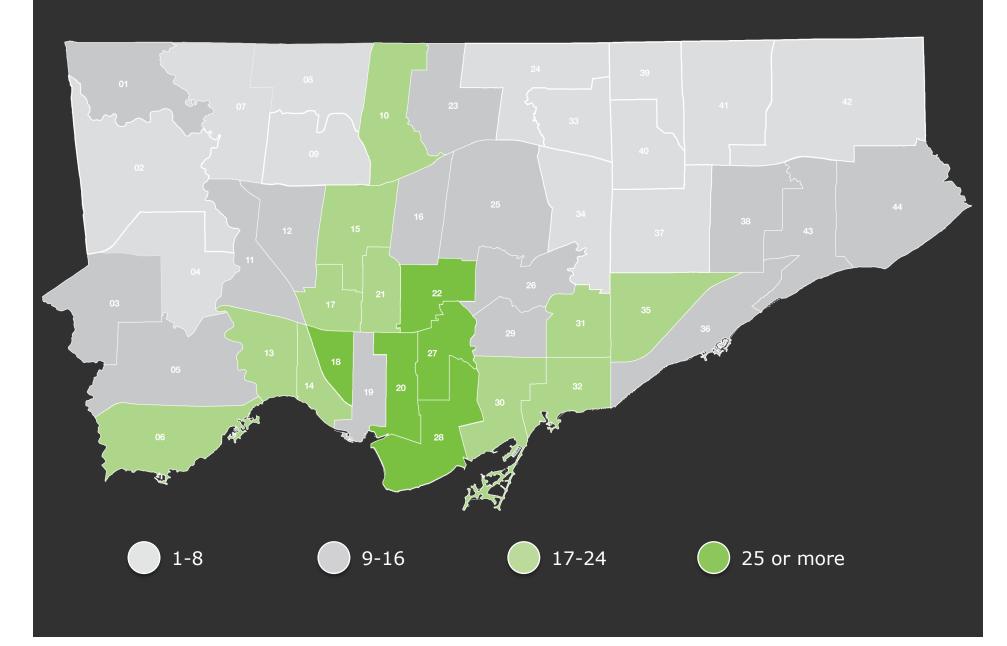

As of Dec 2010:

•1,562 complaints – 98% processed and closed

- 9 investigations completed
- •5 of these were systemic investigations
- •First annual report tabled in January 2010
- •First of three-year strategic plan successfully completed
- Two publications issued

While we raised the Office profile, we are still not reaching many and therefore, rollout is not complete

Snapshot of Complaints by City Ward

The 2010 Issues

Poor Communication **Poor Service**

Faulty Decisions

Unreasonable Delay Unpredictable Enforcement

Poor Record Keeping Poor Information

> Failure to Follow Processes

Conduct

2011-2020 Capital Budget

Background

 The Accountability Officers were asked to prepare their own capital budget this year, a first as the City Clerk's Office rolled them into their budget in the past

Budget Ask

• \$0.500 million to implement a state of good repair maintenance for the Office's case management system

2011 Operating Budget

Background

- 2010 request: two intake positions, only one was funded
- Following Budget Council's direction, absorbed \$60.9 thousand (5%) due to budget pressures by restructuring staffing

2011 Ask

- \$1,493.9 thousand: operating increase of \$102.7 thousand with an annualization of \$73.4 thousand in 2012
- Salary and benefits for two new direct service delivery positions:
 1 Investigator and 1 Intake

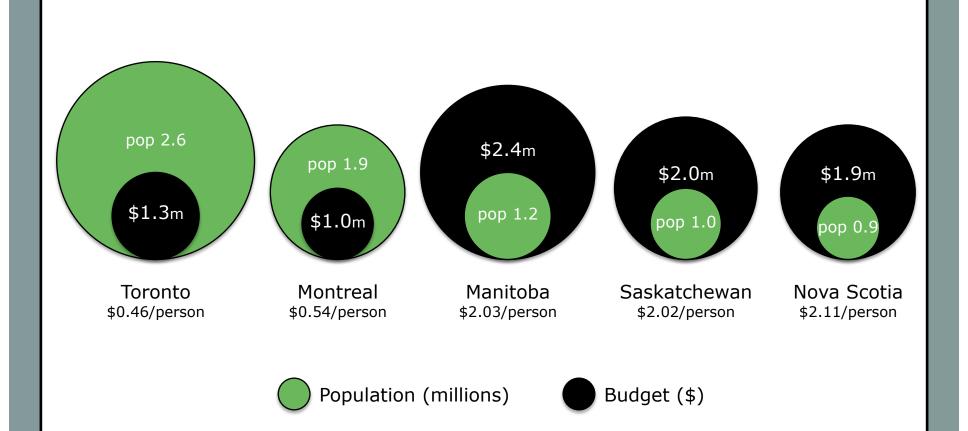

Purpose

- 1. Maintain standards of individual complaint handling
- 2. Systemic investigations for long term fairness, efficiencies and savings
- 3. Ensure under-served areas of Toronto are properly served

2011 Ask (cont.)

- Should Council decide not to grant this budget request then minimally return the 5% efficiency of \$60.9
- 2. Doing otherwise will place the Office in serious jeopardy given its nascent state and the currently under-served neighbourhoods

2009 Spending in Comparable Jurisdictions

Consequences of No Increase

- Significant weakening of the ability to meet legal mandate
- Inability to provide equitable access for residents outside the downtown core
- Severe limitation in doing systemic investigations leading to unfairness, inefficiencies and customer dissatisfaction
- Fewer long-term savings, decreased accountability and continued decline in public confidence
- Undermining credibility of the Office
